June 2018

Dear partners, supporters and friends,

the first half of the year has already past and a lot has happened for CRISP. We have developed and conducted several simulation games in Germany but also abroad. Also this year we have managed to ensure the continuation of some of our projects and we have already implemented the first activities. It was also the first time CRISP was invited to South-America.

Furthermore, we have welcomed to new colleagues: Katja Pavlova, our former EVS, is now a full-time employee and Sarah Walther-Young is a new project coordinator. Since our team is steadily growing we had the need to move out from our current office where we stayed the last 9 years. By 01.07. you can find our new office in Ringbahnstr. 54 (12099 Berlin).

In case you are interested in closer cooperation between you, your organization and CRISP, please do not hesitate to get in touch with us.

Best regards
The CRISP Team
