12 months European Volunteer Service (EVS) from Egypt

Who we are

CRISP is small Berlin based NGO. CRISP facilitates seminars and trainings dealing with conflict transformation and political participation. We contribute to peaceful conflict resolution with our work in post-war areas. That is why we support critical democratic forces, which initiate, support and encourage a peaceful conflict transformation in society. In this process, our guiding principle is to adjust our projects to local needs. Our activities are targeting mainly young civil society activists interested in experience-based learning. With the use of simulation games enriched by role-play elements CRISP aims for a self-organizing, holistic, and highly hands-on learning culture. For more information visit our [Homepage](#).
