

Dear partners and friends,

summer has finally arrived in Berlin. With raising temperatures and decreasing corona cases we are enjoying our work even more than usual and hope that the current situation is more than "just a break" from the pandemic. In that spirit we were planning our activities for the rest of the year during our **internal monitoring** meeting. We have several interesting events coming up. We will deliver workshops for the OSCE Academy in Bishkek, continue with our activities in Chile, Ukraine, Jordan and Egypt, start in new project in Moldova and we will work on improving the transatlantic relationships, just to mention a few.

We are extremely happy about the massive response-rate of Berlin schools regarding our smartphone-based simulation game "**Wer regiert Deutschland 2021**" - we enable young voters to better understand coalition building processes in Germany. Furthermore, during the past months we have significantly expanded our online offers, you can find a comprehensive overview in our new **online brochure** - we hope to see you in one of our upcoming courses in 2021.

We wish you all a relaxed summer together with your families and friends. If you like, please drop us a line and tell us how you are. We are always happy to hear from you. When you find any inspiration for collaboration in this newsletter, please do not hesitate to contact us.

Best regards and stay well
The CRISP-Team

CRISP Annual Report of 2020

What a year. 2020 was challenging and in many ways extraordinary. We had to pause, to re-program, to adapt to the virtual space and to relaunch our activities. We sincerely hope you and your family and friends are fine.
