

Dear partners and friends,

we sincerely do hope all of you are doing fine during these challenging times. After a year of pandemic we have adapted to the current situation, and moved most of our activities to online formats. Thanks to these adaptations and the flexibility and creativity of our partners we are able to reach all our goals within our projects. This makes us really happy and proud. Despite the fact that implementing activities online definitely also brings advantages we are missing the direct contact to partners and participants. We really hope that this will be possible again during the course of the year.

Taking further steps to advance out online formats, we are extremely happy to be able to present you the smartphone-based simulation game **“Wer regiert Deutschland 2021”** and we will start to work in Yemen by developing an **online quiz on peacebuilding**. Furthermore, we are very glad that our persistence was successful and our project application regarding the **New Constitution in Chile** was approved and we are currently looking for a new colleague.

We know that these days are very challenging. If you have any thought, how we could support you throughout the months, please let us know. As well as when you find any space for collaboration in this newsletter, please do not hesitate to contact us.

Best regards and stay well
The CRISP-Team

TOP NEWS

Wer regiert Deutschland 2021

Anlässlich des „Superwahljahres“ 2021 haben wir ein neues Smartphone-gestütztes Planspiel entwickelt: „Wer regiert Deutschland 2021“. Darin führen die Teilnehmenden Koalitionsverhandlungen und versuchen eine neue Regierung zu bilden.

Testing phase of “Hidden Memories – Follow-up” has started!

These days, the most interesting history lessons are taking place in Ukrainian schools. That is because the project “Hidden Memories. Follow-up” shifted from its theoretical part to practice, and its participants started testing pedagogical modules that they have been developing during the last several months.
